

MARI TAKEYAMA

2D ART & ILLUSTRATION

COVER LETTER

Greetings!

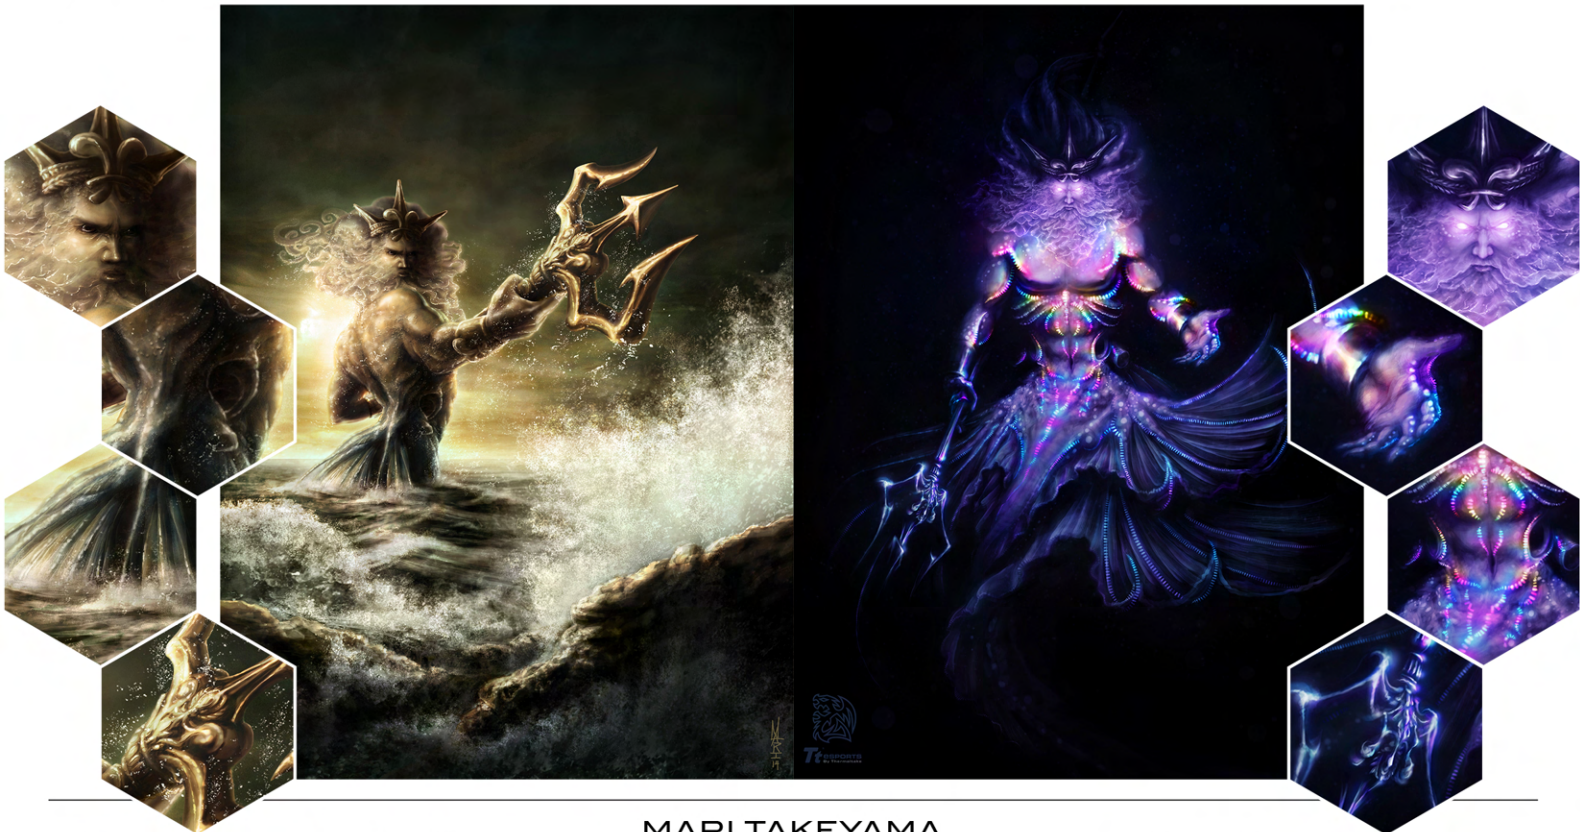

My name is Mari Takeyama, and I'm a monster-loving 2D artist inspired most by the fantastical and all things spooky. I'm driven by my love for collaborating, conceptualizing and problem-solving for creative projects of all sorts and sizes. My ultimate passion is making art that helps bring stories to life for entertainment and education.

Throughout the years, I have developed a specialty in realistic illustration. Freelancing has also made me multi-faceted, allowing me to quickly and easily adapt my art style to fit the needs of various projects for various industries. From drawing popular cartoon characters for the entertainment industry to painting real-life events for non-profit charity, my goal is to make compelling, atmospheric, believable artwork that engages viewers and enhances the overall visual-storytelling experience.

I'm excited to meet with you and further discuss how my cumulative experience as a freelance artist can contribute to your company. Thank you in advance for your consideration, and I look forward to hearing from you soon.

Cheers!
